

IMPORTANT

DOG AREAS

Good morning, homeowners and Residents

On Tuesday the team lead for O&A Landscape came to my office to inform me that they would not be mowing the grass area behind the dumpster located in front of the K Building, the south entrance to the community, due to excessive amounts of dog “Feces” commonly known as “Poop”. As he stated “there is more poop than grass”.

This is **not** a designated dog area. If you are taking your dog to this area, please stop. There is a designated area across the entrance with a doggy station clearly visible. Please take a moment and familiarize yourself to all designated dog areas; these are located at both the North and South entrance, on the right side of the tennis courts, behind boat parking and along the back brick wall. All areas are fully stocked with doggie bags should you forget to bring them. The area behind the tennis court adjacent to the lake **is not** a designated dog area and dogs should not be down in that area or at the beach.

If you see someone breaking this Camelot rule, please call the office and I will address it directly with the dog’s owner. We will be updating our surveillance system beginning next week to help us monitor these along with other critical areas.

We cannot have our vendors not able to perform their service due to us not following the Rules and Regulations. If you need to read them; they are posted on the website; www.camelotbtl.com

Thank you,

Trish
