

Good afternoon, homeowners and Residents

The K Building is completely tented. The fumigation started at approximately 1:45 p.m. and the gas will remain in the building for 18-24 hrs. Tomorrow morning the crew will be back to check on the progress and start the removal of the tents. Once the tents are completely removed the process will begin to allow the gas to dissipate. The crew will check again on Thursday; this will give us a better idea when you are able to return.

Thank you for your cooperation.

The Board of Directors and Trish

Good morning,

Morning update: the building did great overnight, and the security guard had no issues. This morning, they are removing the tents, opening the units to check the levels and will leave them open throughout the day. The fumigation team will be on property all day to keep the building secured. Before leaving for the day the levels will be checked again and the units secured. I will be able to give you an estimate of return later this afternoon.

Have a great day,

Trish
