

SEAL COAT UPDATE

February 21, 2025

Good morning homeowners and Residents,

Just a quick update on our seal coat project. This week the contractor was out and painted wheel stops and the curbing. Depending on the forecast he will be back on Wednesday/Thursday (2/26 and 2/27) to finish, please try and park about 3ft. back from the wheel stop. He will also be filling in the valley, nothing you need to do for this.

At the moment we are looking to start the seal coating on Monday, March 3, 2025. I will finalize this date with him mid-week after consulting with the forecast. Please take this time to remove any debris off of the ground in your carport space.

Again, thank you for your cooperation during this time.

Trish
