

September 16, 2024

To all of our Residents and Owners,

With the close of the Legislative Session there were many changes as to how HOA's conduct business. One that is mandatory by January 2025 is a website for your community. The Board realizes that Sentry does provide the owners with one, CommunityPro, however the Board felt that it would be a valuable asset to have a "Camelot by the Lake" website to be more inclusive of everyone here. This would allow both owners and tenants to stay informed in real time. It will also give potential buyers/renters a quick glimpse into our community and provide necessary documents including the Rules and Regulations to all at your fingertips.

Please keep in mind that CommunityPro will still be used and updated for owners only. All the required documents will still be located in their appropriate file.

At this time, we welcome the community to access this new and exciting website at; www.camelotbtl.com. Keep checking back for new updates!!
