

SEAL COAT PROJECT

The Seal Coat Project will begin on Tuesday December 17, 2024 with the painting of the wheel stops. The resident parking space will remain the same, yellow with your numbers painted in black. Our guest/visitor spaces will now be painted white. You may park in your space during this time, just back off the wheel stop 2-3ft.

The sealing of the parking lot will begin on Monday January 6, 2025. Later this month I will be sending a schedule to give you ample time to park elsewhere on the property. Carport owners it is very important that you remove **everything** from your space.

Recently we have had people parking in spaces that are not assigned to them. Please be mindful that each unit has **ONE SPACE** only, direct your visitor/guest to guest parking. Also, this is a very busy time and with the cooler temperatures we may forget to lock our cars when we return, please take a moment to double click your key fob to make sure your vehicle is secure.

Thank you all for your cooperating during this project as the Board continues to work on behalf the entire community.

Trish
